

# Princess Animal Hospital

Every Pet. Every Client. Every Family. Every Time.

## Welcome to Princess Animal Hospital!

We look forward to seeing you soon...until then, we hope you find the following information useful.

### Nutrition & Diet for your Pets

Knowing how to select a good pet food, how much, and when to feed, as well as how you can control or prevent diseases through diet, will help your pet(s) live longer and healthier lives. If you have any questions regarding your pet's diet, we will be happy to answer them for you!

### Early Detection Screening

A thorough physical examination alone does not detect all possible health problems. It is impossible to obtain and understand a complete picture, without also performing other tests. Blood work and urinalysis give us a means of checking your pet's internal organ function in a non-invasive manner. As us about your options for optimal care!

*Every Pet, Every Client, Every Family, Every Time!*

## Dental Health for your Pet

Good dental health for your pet is necessary for good breath, eating habits and overall health. Pet dental problems can lead to heart disease, weakening of the immune system and other health problems. During your pet's annual check-up, your veterinarian will evaluate your pet's dental health. In the meantime, brush your pet's teeth on a daily or weekly basis. Cleaning your pet's teeth when he/she is young, will help he/she get accustomed to it, much easier. Complement your home teeth-cleaning sessions with a professional teeth cleaning by the professional staff at our hospital once a year. If you simply can't get your pet to give in to brushing, use a dental formula food that promotes dental health, and ask us about Healthy Mouth, a water additive, to help maintain good dental health!

## Pet Health Care Coverage

Pet insurance by Trupanion covers 90% of your actual veterinary bills for accidents and illnesses, with no payout limits. Learn more/get a quote at [www.trupanion.com](http://www.trupanion.com)

**Wellness Plans:** Ask us about your Wellness Plans, to help in budget for your pet's care!
