Healthy Start Puppy Agreement

At Sechelt Animal Hospital we recognize that the first year in the life of a puppy can be the most challenging, the most rewarding and the most expensive time for pet owners. The Healthy Start Package is designed to give your new pet the best start possible.

Healthy Start Puppy Package

- Three complete physical exams with a veterinarian
- Three compete sets of puppy vaccinations
- Three months of flea prevention
- Three months of deworming
- Permanent ID for your puppy
- Neuter or Spay

— The Healthy Start package includes only the items and services listed above and is for routine wellness care only. Any additional costs for office visits, diagnostics or medications required for a sick pet are the responsibility of the pet owner.

— I, the pet owner, agree to follow the vaccination and deworming plan laid out by my veterinarian. Any additional costs due to deviation from the plan are solely the responsibility of the pet owner.

— Spaying and neutering are to be completed by six months of age unless otherwise indicated by the veterinarian. Additional costs due to delaying the spay/neuter including but not limited to an increase in size, mature abdomen surcharges, pregnancy, in-heat surcharges and scrotal oblations are the responsibility of the pet owner.

— I, the pet owner, agree to follow post-op care instructions as outlined by my veterinarian and Sechelt Animal Hospital staff. Any complications that arise due to a failure to provide appropriate post op care are the responsibility of the pet owner.

— Any additional surgical procedures performed at the time of spay/neuter, including but not limited to deciduous tooth extractions, hernia repairs, removal of abdominal testicles, dew claw removals, gastropexy and laparoscopic procedures will be done at an additional cost to the pet owner.

I the undersigned have read and understand the above statements, am over the age of 19, and I agree to the terms of the Healthy Start puppy package for the pet below:
