Adjust feeding amounts as necessary to maintain optimal weight. If you are unsure, ask your veterinarian. For best results & safety practices:

- Gradually transition to your pet's new food over a 7 day period.
- Exclusively feed the recommended Prescription Diet® dry food, canned food, & treats
- Keep fresh water available at all times.
- Have your veterinarian monitor your pet's condition.
- To prevent suffocation, keep the packaging out of the reach of pets & children.
