

## NUTRITIONALLY MANAGE AN ESTIMATED 90% of your food-responsive GI cases\*

Contains medium-chain triglycerides (7.5 – 12.1% of fat), a source of fat which is easily digested and absorbed to provide readily available energy

Colostrum helps stabilize intestinal microflora, reducing the risk of stress-related diarrhea, and primes local and systemic immune systems (dry)

\*Conclusion based in part on Kynectec 2017 Veterinary Landscape Canine Gastrointestinal Cases – diagnosis as percent of GI cases

## WHEN CLIENTS ASK FOR NATURAL OPTIONS

Contains medium-chain triglycerides (7.5 – 12.1% of fat), a source of fat which is easily digested and absorbed to provide readily available energy

Colostrum helps stabilize intestinal microflora, reducing the risk of stress-related diarrhea, and primes local and systemic immune systems (dry)

Natural with added vitamins, minerals and nutrients. Formulated without corn, wheat, or artificial colors and flavors

## FOR DOGS WITH FIBER-RESPONSIVE COLITIS

Optimal level of fiber to help promote intestinal motility

Blend of soluble and insoluble fiber to help support GI health

Contains a select prebiotic fiber to support GI microbiome balance and digestive health

## WHEN LOW FAT MATTERS

Highly digestible to promote optimal nutrient absorption

Low in fat for dogs who have difficulty digesting fat

Contains a select prebiotic fiber to support GI microbiome balance and digestive health
