

Feline & Canine SENIOR WELLNESS & PACKAGES

No Cost Nutrition Sample with any PURCHASE of Senior wellness packages

(Librela/Solensia kit, or
Senior wellness package):

The food your dog eats plays an important role in their overall health and well-being. As dogs age they may require controlled levels of protein and minerals to protect vital kidney and heart function in their golden years.

Hill's nutritionists and veterinarians developed **Hill's Prescription Diet g/d** Dry Dog Food to support your older dog's overall health, helps protect kidney function and is often used in unique situations where lower fat is needed with controlled protein and minerals.

How it works:

- Optimal balance of key nutrients -- protein, sodium and minerals
- Controlled phosphorus, sodium and moderate protein
- Controlled dietary fat

How it helps:

- Supports needs of aging dogs
- Helps protect vital heart and kidney function
- Appropriate for dogs with sensitivity to dietary fat
- **S+OXSHIELD**: Formulated to promote a urinary environment that reduces the risk of developing struvite & calcium oxalate crystals

Additional info:

Hill's Prescription Diet **g/d** Dry Dog Food is a complete and balanced food for dogs in need of Aging Care. Please consult your veterinarian for further information on how our Prescription Diet foods can help your dog to continue to enjoy a happy and active life.

Hills Canine G/D
Wet food:
