

Dasuquin with MSM & Dasuquin Advanced Feline

Dasuquin with MSM:

- Helps support cartilage matrix production
- Helps inhibit certain enzymes that breakdown cartilage
- Helps support joint comfort
- Contains antioxidants
- Tasty sprinkle capsules

- Dasuquin MSM for cats is a joint health supplement containing glucosamine, chondroitin, avocado/soybean unsaponifiables (ASU), and methylsulfonylmethane (MSM), designed to support healthy joints and cartilage in cats
- **Methylsulfonylmethane (MSM):** MSM is added to the formula to help reduce joint inflammation, improve cartilage resilience, and enhance mobility.

Dasuquin® Advanced for Cats is our most complete joint health supplement for cats. It contains the same trusted ingredients found in Dasuquin®, the #1 joint health brand recommended by veterinarians ♦ .

Dasuquin® Advanced for Cats is enhanced with a proprietary blend of ingredients to provide a multi-mechanistic approach for supporting your cat's joint health. Dasuquin® Advanced for Cats is offered in tasty sprinkle capsules to provide a simplified experience for supporting your cat's joint health.

Dasuquin® Advanced is offered in tasty and convenient sprinkle capsules. Simply sprinkle the capsule powder over cat food or mix in.

If your cat eats dry food, the food may be moistened with a small amount of water so that the powder sticks. Alternatively, the contents of the capsules may be mixed with a small amount (e.g., tablespoon) of wet or moist food to ensure your cat eats the entire amount.

Capsules may be “pilled” if more convenient.

Cat’s Weight (lbs)

	Initial 4-6 weeks (sprinkle capsules per day)	After Initial 6 Weeks (sprinkle capsules per day)
Under 10	1	1 EOD [▼]
10 and over	2	1 daily

[▼] *Every other day*

Capsules may be given once or twice a day depending on your cat's feeding schedule.

The maintenance level can also be used long-term in healthy cats to help support their joints.
