

## + Active Ingredients

Thera-Bites® Hip & Joint Large Dogs per chew:

**Chondroitin Sulfate:** necessary to attract and release water during times of compression and relaxation, stimulates cartilage regeneration and aids in decreasing inflammation in the synovial fluid.

**MSM:** provides sulphur as the solder to hold GAGs in place and acts as an anti-inflammatory agent.

**Glucosamine:** the building block for the shock absorbing GAGs and key component of synovial fluid.

**Manganese:** used by the body as a “welder” to assemble the shock absorbing cartilage GAGs.

**Vitamin C:** necessary for the production of collagen (cartilage support).

**Inactive Ingredients:** Barley flour, brewer's yeast, chicken, chicken fat, coconut glycerine, pork liver, molasses, whey, vegetable oil, chicken flavour, smoke flavour, mixed tocopherols, rosemary powder, beef liver powder.
